

# Veolia RO Units

## PRO Series Industrial Systems

Configurable Industrial Reverse Osmosis Systems for Process Water

### SECTION 1 — OVERVIEW

The Veolia PRO Series industrial reverse osmosis units, as distributed by Purecowater ([purecowater.com](http://purecowater.com)), are configurable, skid-mounted systems designed for high-performance water purification. Each unit features integrated controls and utilizes GE/SUEZ components, including thin-film composite membranes and high-pressure pumps, ensuring reliable operation and consistent water quality. The systems are constructed with stainless steel frames and piping for durability and corrosion resistance in demanding industrial environments. Multiple flow configurations are available, ranging from small-scale to high-capacity units, with options for automated controls, bypass loops, and recirculation capabilities to optimize efficiency and flexibility. The PRO Series is engineered for continuous operation, offering low energy consumption and minimal maintenance requirements. These units are pre-assembled and factory-tested to simplify installation and commissioning, making them suitable for a wide range of industrial process water applications where consistent, high-purity water is critical.

### SECTION 2 — APPLICATIONS

- Industrial process water for manufacturing facilities
- Power generation plants (boiler feedwater and cooling)
- Pharmaceutical and biotechnology production
- Food and beverage processing (ingredient water, rinsing)
- Electronics and semiconductor manufacturing
- Boiler feedwater treatment for steam systems
- Pretreatment for deionization or distillation systems

#### BRANDS WE DISTRIBUTE

- Veolia / SUEZ
- Tonkaflo Pumps
- ErtelAlsop
- LG Membranes
- Fil-trek
- WTS
- Engineered Solutions

**20+ years of industrial filtration expertise. Contact us for pricing, sizing & availability.**

## Product Specifications

<b>Manufacturer</b>	Veolia Water Technologies
<b>Series</b>	PRO Series — configurable industrial skids
<b>Construction</b>	Stainless steel skid-mounted
<b>Controls</b>	Integrated PLC with HMI
<b>Components</b>	GE/SUEZ membranes, Tonkaflo pump
<b>Options</b>	Bypass, recirculation, multi-pass
<b>Industries</b>	Industrial process, power, pharma, food & bev
<b>Distributor</b>	Purecowater — info@purecowater.com
